

Does your child have an additional need or disability?

My choice

My needs

We want to offer as much choice as possible to meet your child's individual needs. Your child may receive a personal budget to purchase the support that's right for them and the family or you can purchase support independently

Either way drop in to meet the providers who may be able to support your child

Fun

My support

Workers from the Children's Specialist Service Team and others will also be there to offer advice
