

Interventions: An overview of a range of support programmes and approaches (Primary)

Who is it for?

Teachers, SENCO's and Teaching Assistants

Course Content:

This course looks at a range of maths and literacy interventions that can be used with pupils in Key stage 1 and 2 with a focus on effective delivery. The interventions are either free or very inexpensive for schools to purchase. Most require no or very little time to make resources etc. There will also be consideration of baseline and post intervention assessment.
