

## Person Centred Planning (PCP)

### Who is it for?

SENCOS, Head teachers and SEND governors.

### Course content:

The SEND reforms became law in 2014 and require us to put children and young people at the centre of their education journey. Person Centred Planning (PCP) has been adopted by many local authorities and settings as a way of doing this. This course will explore values of PCP and introduce practical tools to support PCP in your school.
