Medical Questionnaire To inform an Education, Health and Care Assessment

As part of the Education, Health and Care Assessment process, the Local Authority is required to seek health advice. This is because we need to find out whether or not your child's learning at school is affected by a health condition. The medical questionnaire will be looked at by a qualified health professional.

In most cases filling in the form gives us all of the information we need and a separate medical appointment may not be necessary. In some cases, we may tell the local authority to ask another agency for more information about the conditions you have described, especially mental health conditions.

If after reading all the information in the child's Education, Health and Care request paperwork, the community children's doctor feels a medical examination is needed, your child will be offered an appointment. The purpose of this medical appointment is to let the local authority know about existing physical health needs that may impact on your child in school and is not intended to be for any diagnostic purpose. Please don't be concerned about being invited to come to meet the Children's Doctor.

It would therefore be helpful if you would complete and return this form to us via the school, who will return it with the other documents you are completing to the Local Authority
